Re: Section 106 Public Outreach  
"Marlboro 9W ODAS (Node 5)"  
1024 US-9W  
Marlborough, New York 12542  
CBRE Project No.: TS70717939

Dear Mr. Brand:

CBRE is writing on behalf of Cellco Partnership and its controlled affiliates doing business as Verizon Wireless to solicit your input concerning a proposed telecommunications facility at the above referenced address. The facility will include a 42-foot utility pole along with the installation of ancillary equipment. CBRE is requesting comments with regards to any potential impacts on historic architectural and/or archaeological resources.

As the Project is a federal undertaking regulated by the Federal Communications Commission (FCC), it is being reviewed under Section 106 of the National Historic Preservation Act for its impacts to historic architectural and archaeological resources. Federal regulations allow for public participation as part of the Section 106 process.

As such, CBRE would like to inquire if you would be interested in commenting on this proposed project. *Please note that we are requesting your review as part of the Section 106 process only and not as part of the local zoning process.* Furthermore, only responses related to historic properties potentially affected will be considered.

If you are interested in becoming a consulting party and have any comments or concerns regarding the proposed Project, please contact me in writing at CBRE, 4 West Red Oak Lane, White Plains, New York 10604 or at [whiteplainsculturalresources@cbre.com](mailto:whiteplainsculturalresources@cbre.com). Please reference the project name and address in your comments. Any responses must be received within 30 days of receipt of this letter. Only consulting parties indicating their desire to receive information and/or otherwise participate in the Section 106 review process will be afforded this opportunity.

Thank you for your time and attention to this matter.

Sincerely,

A handwritten signature in blue ink that reads "Amanda M. Sabol".

Amanda Sabol  
Project Manager
